[Letter #4]

[From: Mohammad Assil s/o Mangal].

Honorable Judge John Gleeson, United Sttes District Court Judge:

I, Mohammad Assil, son of Mangal from Zazi's tribe citizen of Afghanistan, Nation Identification Card No: CT-10790091181, very respectfully wire here that:

Mohammad Wali Zazi is like my brother and I also know him not only as a relative. He was driving a truck here with very low wages, he took the responsibility of his family as a head of the household, he was working around to get sustenance for his family, he was a hard working man, he was friendly with everyone and say hello to everyone with smiling face. People liked him and respected him because he was a person of good character and nice behavior. He respected the elders and was kind to the younger. He did not like political parties or organizations, he was always concentrating on how and where to find food and clothes for his family. He did not hang around uselessly with other people and he liked people of good character and he mostly concentrated on his work. He worked very hard here to provide everything for his family and then when his income here was insufficient for his family, I think, he went abroad to work because there were good opportunity to work. He wanted to have a happy life for himself and for his family.

I kindly offer the above letter to the concerned place.

Respectfully, Finger print.

Honorable Janglee Jan United States
 District Court Judge
